

RELATE VIEWS  
OF DISASTER.Slide Imprisoned Persons  
Reach Vancouver.Give Narratives of Roger's  
Pass Horror.Victims Frozen Stiff in Ice  
and Snow.

(Associated Press Night Report.)

VANCOUVER (B. C.) March 8.—One hundred and fifty persons who were imprisoned on trains caught between slides in Roger's pass reached Vancouver today and gave accounts of the disaster of last Saturday morning. C. G. Anderson, commercial traveler of Toronto, said: "Picture an area of twenty miles square covered by millions of tons of snow, half ice, and here, close to Roger's station, great trees and boulders torn up and hurled down from the mountain side into this cañon. I saw the bodies of three white men and several Japanese taken out cold and stiff. Every one of these men was found in an upright position with the arms raised to the level of the shoulders. The shovels were all thrown in a heap. That showed how closely they were working together, preparing the way for the railway. The great mass of the wind seemed to have been the one warning signal."

AWFUL SIGHTS. "Early Saturday morning, after a sleepless night, many of the passengers trudged through a blinding blizzard to the scene of the slide. We found hundreds of men at work removing the mass of wreckage underneath which the victims were entombed. Now and then their efforts were rewarded by the discovery of bodies. The frozen hands of the dead were uplifted, or outstretched, as if they had been attempting to shield their heads from the force of hundreds of thousands of tons of debris that descended upon them."

"The worst sights were witnessed in a fifty-foot heap of wreckage piled on top and alongside an abandoned snow shed forty or fifty feet from the main line. The air was filled with the fury of a cyclone carried them, in some instances, fifty or sixty feet."

ENGINEER'S EXPERIENCE. "Lachance, the engineer of the rotary, who was severely injured, said he felt that he was being held alive as he was lifted in his engine and carried through the air from the main line to the top of a snow shed nearly fifty feet away."

"He labored near the protecting shelter of a huge fragment of the rotary and was enabled later to crawl from underneath a covering of snow and debris. The snow shed was there for several hours before he realized what had happened."

SIXTY-TWO RECOVERED. DIGGING BODIES FROM RUINS. (Associated Press Night Report.) WELLINGTON (Wash.) March 8.—Sixty-two bodies had been brought out of the avalanche ruins when work closed, at dark tonight, leaving more than fifty dead bodies in the gulch, it is believed.

The finding of a considerable number of bodies of unidentified Italian laborers confirms the belief that the number of foreign workmen carried down in the smoking car in which they were bunking, was large, probably thirty. Of the eight bodies recovered today, six were foreigners. Six other bodies are in sight and will be taken out tomorrow.

STRIKERS DYNAMITE CAR.

Non-union Laborers on Way to Co-  
nition Return to Saratoga—Paper  
Mill Trouble.

(Associated Press Night Report.) CORINTH (N. Y.) March 8.—A car containing 100 non-union men, who were coming here to take the place of strikers in the mill of the International Paper Company, was dynamited today, and forced to return to Saratoga. Pistol shots were exchanged, and Conductor John Bartholomew was mobbed and injured. The railroad bridge was burned.

Six hundred employees of the International Paper Company have been out on a strike because a back tender was discharged, and it was reported that the pulp subside workers had planned a general strike to take effect on March 25 to enforce a demand for 10 per cent. increase in wages and no Sunday work.

BANK BILL REACHES HOUSE.

WASHINGTON, March 8.—The Postal Savings Bank Bill, which passed the Senate last Saturday, reached the House today and was referred to the Committee on Postoffice and Post-roads. Chairman Weeks said it would likely be some time before the bill is reported.

AFTER TREASURE.

BANDITS BIND VICTIM AND  
SHOOT WOMAN IN HER HOME.

SAVING HER SON, Henry Stevens, from possible torture at the hands of two masked bandits by her unexpected return home last night, at 10 o'clock, Mrs. Carl Stevens herself came to grief. She was knocked down with a blow from a pistol butt and then shot twice, once through the upper part of the head and once through the jaw.

## DESTRUCTION WROUGHT BY AVALANCHE THAT SWEEPED MANY TO DEATH.

Ruins of the Standard Sleeping Car Winnipeg, from which fifteen bodies have been taken. This photograph will illustrate the tremendous force of the avalanche at Wellington, when more than a hundred persons lost their lives. The twisted iron about the stump shown in the picture are all that is left of the car.

## PHILADELPHIA STRIKE.

(Continued From First Page.)

Manufacturers declared that many union men were disappointed over the failure of the general strike to force the Rapid Transit Company to arbitrate. Union leaders denied that there were any defections.

TALK TO JEWISH STRIKERS.

C. O. Pratt, the car men's leader, addressed a crowd of several hundred at a meeting of the Allied Jewish Trades, urging the men to stand fast in a winning cause. He declared that if an outdoor demonstration was permitted it would assume proportions that would surprise the country.

The report from Cincinnati that the local brewery workers might be organized by the local brewing interests. The Philadelphia Brewers Association issued a statement, in which confidence was expressed that the men would stick to their jobs.

WORK AT BALL PARK.

One interesting development today was the appeal by officials of the Philadelphia National League baseball club to the strike leaders. The baseball interests asked that the union men who have been working on the ball park improvements be permitted to continue and complete the work. Unless the work is finished by April 15, the opening of the season, the baseball men say the club will be badly handicapped.

MISSOURI WET OR DRY?

Statewide Prohibition Question Will Go to the Voters at Next General Election.

(By Direct Wire to the Times.)

ST. LOUIS (Mo.) March 8.—(Exclusive Dispatch.) It is now definitely settled that its constitutional amendment for State-wide prohibition will be submitted through the initiative of the voters of Missouri at the general election next November, according to a circular letter sent by former Judge William H. Wallace of Kansas City, president of the Constitutional Amendment Association.

"Twenty-four thousand names of legal voters, properly distributed in eleven Congressional districts, would satisfy the requirements of the law," Judge Wallace, who adds that the association has obtained 35,725 signatures to petitions in the thirteen Congressional districts. The prohibitionists will open their campaign in a convention Friday and Saturday of this week.

APPROPRIATION BILL.

WASHINGTON, March 8.—After adopting the amendments of importance, the Senate today passed the Agricultural Appropriation Bill, carrying a total of \$13,525,535, an increase of \$152,560 over the amount carried by the bill as it passed the House.

FINAL WITNESS IN SUIT TO  
DISSOLVE RAILROAD MERGER.William Mahl, Comptroller of Union Pacific, Was the  
Last to Testify Before Adjourning—Government's  
Rebuttal Scheduled for Next Month—Some Interest-  
ing Figures Are Gathered.

(Associated Press Night Report.)

NEW YORK, March 8.—William Mahl, comptroller of the Union Pacific Railroad, was the final witness today in the government's suit to dissolve the Union Pacific-Southern Pacific merger. Adjournment was taken till March 29, when the defense may put in additional testimony. The hearing will close on April 4, to allow the government an opportunity for rebuttal.

The government closed its direct case last June, the original complaint being filed in Omaha two years ago, after an investigation by the Interstate Commerce Commission. Since then when P. D. Dunn of San Francisco and H. N. Loomis of Omaha, who were substituted, C. A. Severance, who has been conducting the prosecution, aided by Frank B. Kellogg, who conducted the Standard Oil cases. Statements submitted by Mr. Mahl showed that the Union Pacific held \$23,700,000 of the stock in the Illinois Central and owned 99.93 per cent. of the stock of the Railroad Securities Company, in turn, owned 99.99 per cent. of the stock of the Illinois Central stock in that road controlled by the Union Pacific aggregate \$22,000,000. The holdings of Chicago and North-western, held in the name of the Oregon Short Line, he testified, had increased from \$2,475,000 to \$4,750,000, and the New York Central holdings, also in the name of the Oregon Short Line, from \$14,250,000 to \$17,875,000. There had been no change in the stock ownership by the Union Pacific in the Chicago and Alton, or in the Baltimore and Ohio. It appeared that the Union Pacific owns \$126,610,000 of the stock of the Oregon Short Line, a total of \$122,475,000, or \$46 per cent.

BEHIND CLOSED DOORS.

TRIAL OF ALLEGED POLITICAL  
OFFENDERS BEGINS IN RUSSIA.

(By Direct Wire to the Times.)

ST. PETERSBURG, March 8.—Nicholas Y. Tschakovsky pleaded not guilty, and Mme. Broshkovskaya said: "I admit I am a social revolutionist," when their trial on charges of criminal activity in the revolutionary organization began today. The public was not admitted to the courtroom, the audience being confined to the prisoners, court officers, Tschakovsky's wife and forty guards and plain clothes officers.

The court denied a motion for separate trials, as well as the request for an adjournment of Tschakovsky's case. In view of the non-appearance of the prosecution, the judge ordered the case to be continued to the next day. The government's chief witness, Pateuk, the informer, made an unsatisfactory impression even upon the court, who cooperated with counsel for the defense in bringing to light the shady reputation of the man.

The court adjourned its sitting at 11 o'clock tonight with the testimony of the prosecution and defense entirely completed. The prosecution's whole case rests on the statements of Pateuk, who added nothing to what he had already given in his indictment. The cross-examination, in which the presiding judge played a prominent part, was a long and tedious affair. Pateuk's criminal record, record of murder and brigandage, Pateuk has been cited as a crown witness in several trials yet to be held.

Both Tschakovsky and Mme. Broshkovskaya flatly denied several points in the accusation on the ground that they were not in Russia at the times specified.

The only other crown witnesses were the colonel of gendarmes, who arrested Tschakovsky, the landlady in whose house he lodged under a false passport, and a policeman who testified that the passport was false.

Tschakovsky's witnesses included business associates from England. The court also admitted as a witness a committeeman of the Labor party, who testified that Tschakovsky had been delegated by the Labor party to collect funds in America for the benefit of exiles.

James J. Hogan, the former Yale football player, who has been dangerously ill from acute kidney trouble at his father's home in Torrington, Ct., was declared out of danger yesterday. Hogan's illness, it is said by his physicians, was brought on by overwork and mental strain during his term of office as director of the Connecticut Commission in New York City.

DOGS GUARDED.

The large and usually crowded courtroom, the doors of which were heavily guarded by the police, had an almost deserted appearance, the little group of accused and counsel being huddled in front of the red-covered dais upon which were seated the judge, the three class representatives of the nobility, urbanites and peasantry. The presence on the dais of Admiral Collivron, a prominent personage, who represented the nobility, was construed as a bad omen by the defense, since his son was killed by the terrorists in St. Petersburg. An alderman and a peasant elder completed the judges. Tschakovsky was brought to court in a carriage escorted by ten gendarmes. As he was seated between two swordsmen in the dock he waved

## PRAISES LILLIS.

(Continued From First Page.)

arises he would probably be removed to his home in a week. Cudahy still retains his room at the Coates House. His brother, Joe, is his constant companion, and he has taken the advice of his attorneys and has kept his own counsel. Whether he will take any legal action has not yet been determined.

LILLIS HASN'T SPOKEN  
ONE WORD IN HOSPITAL.

(Associated Press Night Report.)

KANSAS CITY, March 8.—Fear that complications may develop in the injuries of Jere F. Lillis, president of the Western Exchange Bank, whom John P. Cudahy, the packer, assaulted Sunday morning in the Cudahy home, caused physicians to forbid his removal to his home today. Lillis is at St. Mary's Hospital, and may be there several days.

The development that Dr. Samuel Ayres, who is attending the injured banker, most fears is blood poisoning. The knife which Mr. Cudahy used upon his victim is said to have been an old, rusty blade. Tonight there seems small danger of blood poisoning, but every precaution will be taken to prevent such a development.

Lillis is still unable to talk, as his lips were badly battered. Nurses at the hospital say he has not spoken since his arrival. As the knife did not touch any vital part of Lillis's body, he probably will be out in a few days.

CARUSO HEAVILY GUARDED.

Singer Again Appears, But Surrounded by  
Detectives and Police—More  
Black Hand Letters.

(Associated Press Day Report.)

NEW YORK, March 8.—More carefully guarded by police than President Taft on his visit here, Enrico Caruso, the tenor, who recently received Black Hand letters demanding \$15,000, remained barricaded in his apartments today. The singer is said to have received more threatening letters.

Caruso made his first public appearance in opera last night, since the Black Hand started him with his demands. No less than seventy-five policemen, four detectives and three mounted policemen were detailed to look for lurking dynamiters in and about the opera house in Brooklyn.

By confining the singer in the chorus while the police guarded the wings and one or two perched in the flies. "I am ready for the attack," said Caruso, "but I don't want to be here relaxed into a smile. I prefer that it should not come."

SYSTEMATICALLY STOLE GOLD.

Three Confess to Theft from Elgin Watch Factory—Little by Little.

(By Direct Wire to the Times.)

ELGIN (Ill.) March 8.—(Exclusive Dispatch.) Edwin Jones and Charles Ward, two employees of the Elgin National Watch factory, and Maj. Lucius A. Hovey, prominent Elgin residents, were arrested today on a charge of confiscating gold bullion from the watch factory and disposing of it in Chicago.

By confessing to the crime, a story of systematic stealing was revealed which covers a period of months, during which time fully \$100,000 worth of gold was taken from the factory and disposed of at the Elgin National Watch factory's pawnshop in Chicago. Confessions were obtained from all three men. The trio pleaded guilty this morning before Justice of the Peace Thompson, the latter setting their bonds at \$500 each and binding them over to the grand jury.

Each of the men is married and has children. Maj. Hovey, who is a man about 65 years old, served during the Civil War.

## NEWS OF THE GREAT PACIFIC SLOPE.

SCANDALOUS.

TROPHY OF CHASE.

DISGRACE.

MOTION FOR

DISBARMENT.

The Seattle Bar Association

Takes Action.

Against Attorney Accused of

Taking Bribe.

It Was in Connection With

Los Angeles Case.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, March 8.—Theodore Roosevelt has presented the University of California with a real symbol of the G.O.P.

In a letter written to President Benjamin Ide Wheeler of the University from Seattle, in British East Africa, Roosevelt offers a fine specimen of the pachyderms to the local institution of learning, as a trophy of his world-famous hunt in the African wilds. The board of regents of the university

Chen, the retiring Chinese Consul-General, who has been stationed in this city for several years. The retiring official was escorted to the steamer Mongolia by the heads of the Chinese Consulate members of the downtown business men's associations and other citizens in carriages decorated with American and Chinese flags.

GILL ELECTED.

SEATTLE GETS NEW MAYOR.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, March 8.—Incomplete returns from today's election indicate the election of Hiram C. Gill, Republican, as Mayor, and the success of the entire Republican ticket, by a majority of more than 1000.

William Hickman Moore, Democratic nominee for Mayor, ran strong in the outlying wards, but in the downtown precincts Gill led five to one.

Charles H. Miller, a barber, and nominee of the labor party, received few votes, his total being less than 1000.

The results of the vote on the amendments to the city charter and the \$10,000 bond issue for various public improvements, will not be known until tomorrow.

The majority campaign centered around the question of "wide open" town. Gill promised a liberal government, while Moore pledged himself to strict enforcement of all the laws. The City Council is almost solidly Republican.

AFTER OLD TREASURES.

HISTORIC BUILDING RAZED.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, March 8.—[Exclusive Dispatch.] With diving rods, picks, shovels and crowbars, energetic treasure seekers are infesting the old Sunol place on South Market street. The building, which, recently, the Native Daughters and Outdoor Art League sought to save and restore, is being torn down to be replaced by a more modern structure. No sooner had the workmen quit on the first night than all sorts and conditions of people, with wild dreams of the hoards of wealth that might be found hidden there, started to wreck the building. The old adobe house where once was gathered the beauty and the chivalry of California, is now more than a heap of ruins. The finding of an old, dried-up leather belt on the top of one of the walls where some workmen had left it when he was making some repairs to the building, yesterday, was the cause of the excitement. Immediately that part of the wall was hacked and chopped until every available hiding place was uncovered.

So far as known nothing has been found around the building.

SLOPE BRIEFS.

Clever Out on Bail.

SAN FRANCISCO, March 8.—Pending an appeal to the U. S. Circuit Court of Appeals, R. T. Clover, convicted of impersonating a naval officer, and sentenced to serve six months in the Alameda County Jail, was released today on a bond of United States District Judge De Haven.

Bigamist in Prison.

SACRAMENTO, March 8.—W. S. Morten, a Woodland farmer, who was yesterday found guilty of bigamy in this county, was sentenced today to serve eight years in Folsom prison.

Typhoid Epidemic Threatens.

ROCKLIN, March 8.—Orders have been issued by the California State Board of Health advising residents of Rocklin, Loomis, Penryn and Newcastle to boil all water taken from the irrigation ditch and used for domestic purposes. A typhoid epidemic is threatened.

Vaccinations Ordered.

SEATTLE (Wash.), March 8.—Because of two cases of smallpox were discovered yesterday in the town of Charleston, adjoining the Puget Sound navy yard, the commanding officer, E. J. J. Lawrence of Connecticut, was ordered to have all enlisted men must be vaccinated before being allowed to leave the yard. Navy yard employees also must be vaccinated and every precaution will be taken to prevent the spread of the disease.

Beat Up; Two Drowned.

VALLEJO (Cal.) March 8.—While returning to the torpedo boat Farragut, to which both were attached, Machinist E. J. J. Lawrence of Connecticut, was drowned early today by the capsizing of his boat.

Charged as a Bank Wrecker.

SAN FRANCISCO, March 8.—Charged with violating the State banking laws, W. C. Hayes, former vice-president and general manager of the wrecked Union State Bank, was held to answer today by Police Judge Shurtell. Hayes's bonds were fixed at \$1000. His attorneys announced that they would apply for a writ of habeas corpus to secure his release.

Hits "Missed" Hole, Is Killed.

GRASS VALLEY, March 8.—By drilling into a missed hole in a shaft of the Empire mine here today, Frank Chaplain was instantly killed by the explosion which followed. Of the other members of the shift, Thomas Weatherhead and Joseph Saunders were seriously hurt by the explosion. Asa Keast, the fourth member of the shift, was knocked senseless by the shock, but was not otherwise injured. Chaplain was married.

Dies Soon After Escape.

STOCKTON, March 8.—Albert West, serving a term for petty larceny, escaped from the county chain gang last evening, and, while trying to board a train at Tracy, suffered injuries which caused his death.

Governor Issues Requisition.

SACRAMENTO, March 8.—Gov. Gilllett today issued a requisition for the return to Los Angeles of George C. Robbins, under arrest in the City of Washington for a requisition from President Taft. Robbins married Mary Jack Robbins in British Columbia, and is alleged to have again wedded Geveneria Lendley in Los Angeles.

## ROOSEVELT GIVES ELEPHANT TO THE UNIVERSITY OF CALIFORNIA.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, March 8.—Theodore Roosevelt has presented the University of California with a real symbol of the G.O.P.

Robbins married Mary Jack Robbins in British Columbia, and is alleged to have again wedded Geveneria Lendley in Los Angeles.

## MOTION FOR DISBARMENT.

[ASSOCIATED PRESS NIGHT REPORT.]

The Seattle Bar Association

Takes Action.

Against Attorney Accused of

Taking Bribe.

It Was in Connection With

Los Angeles Case.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, March 8.—A formal motion for the disbarment of Frank Holzheimer, former chief deputy prosecuting attorney, was made today by John C. Higgins, a special prosecutor from the Seattle Bar Association. There are two charges against Holzheimer—one of soliciting a bribe from Ralph J. Leavitt in Los Angeles, while acting as a servant of the State, and the other of receiving a bribe from Leavitt.

Higgins was specially deputized by Prosecuting Attorney Vandever, and brings the action in the name of the State of Washington.

Holzheimer was sent to Los Angeles last August to act for the State of Washington in Leavitt's fight against extradition, and is charged with having accepted \$500 on August 16 to abstain from prosecuting Leavitt, while demonstrating an automobile two years ago in this city, ran down and killed a street sweeper. His trial for manslaughter is set for tomorrow.

THROUGH TRAFFIC AGAIN.

ESPEE COMPLETES REPAIRS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, March 8.—Through traffic between San Francisco and Ogden, which has been interrupted for a week by slides and washouts in Nevada, will be resumed tomorrow, according to announcement made tonight by the Southern Pacific company. It was stated that by the time the east-bound trains leaving here tomorrow evening reach the breaks, repairs will have been completed. The Overland Limited and the regular east-bound Overland passenger train leaving here tomorrow morning, probably will be held at Sacramento or Reno for a few hours.

AMERICAN LEGATION STONED.

Street Railway Trouble in Bogota Starts Riot Which Results in Attack Upon Americans.

[ASSOCIATED PRESS NIGHT REPORT.]

BOGOTA (Colombia), March 8.—A quarrel between the manager of an American-owned street railway line and a police officer late yesterday was followed by a riot, during which a mob attempted to wreck the street cars. Traffic was stopped and the manager placed under arrest.

The rioting continued for some time and reached the block in which the American Legation is located. The police gathered in force in the vicinity of the mob, after several attempts to reach the block, but were unable to further disturbances during the night, the authorities this morning appeared to be able to afford protection to the American Legation.

Elliott Northcott is the American Minister at Bogota, and Paxton Hibben is secretary of the legation. All at the legation there said to be no further disturbances during the night, the authorities this morning appeared to be able to afford protection to the American Legation.

REPORT AT WASHINGTON.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, March 8.—Confirmation of the anti-American demonstration in the streets of Bogota last night reached the State Department today. The department is assured, however, that the city officials are affording protection to the American Legation.

BODY TAKEN TO OWEGO.

The Funeral Will Be Held Today at Former Senator Platt's Old Home.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, March 8.—Covered with flowers the coffin containing the body of former Senator Thomas Collier Platt was taken today to Owego, where interment will take place tomorrow. Members of the family accompanied the body to the old home of the late Senator. The body was taken on a special car attached to the regular train. Brief prayers were said today at the home of the ex-Senator's son, Frank H. Platt, and during the morning many friends called.

Friends of Senator Platt will leave on special cars from Albany, Washington, and New York tonight to attend the funeral at Owego.

PRISONERS LIBERATED.

MANAGUA (Nicaragua), March 8.—President Madriz today liberated several political prisoners, among them Narciso Arellano. All of the imprisoned prisoners will be released tomorrow. This move is made to conciliate the Granadina conservatives. Gen. Vasquez, who is here, has been ordered by the President to the advantage of sending an army against Bluefields. The experience of former President Zelaya's army during the march on Rama may deter the government from this plan.

SAYS "KNOCKER" WAS HURTFUL.

Robinson Sues Man Who Called Him One for Heavy Damages.

[BY DIRECT WIRE TO THE TIMES.]

ROSEBURG (Or.) March 8.—[Exclusive Dispatch.] Because he called Baxter Robinson of Riddle, this county, a "despicable knocker," Darby Richardson, public agent of the Roseburg Commercial Club, is to be sued for \$2500 damages. The suit is the result of a communication Richardson caused to have published in a local newspaper, attacking Robinson for circulating an alleged false report attacking the security of Richardson's position as head of the county's publicity campaign. Robinson's story, according to Richardson, was to discredit him with the Riddle Commercial Club. Robinson will file his suit tomorrow.

Dividend Day March 10th

THE TRUSTEE COMPANY

## OUTPOURING OF LAYMEN.

Greatest Gathering of Men of  
the Church.

Remarkable Addresses by  
Missionaries.

Convention Will Open This  
Morning.

The greatest gathering of Christian men ever held in Los Angeles, and it is safe to say on the Pacific Coast, was that at the opening banquet of the Laymen's Missionary Convention, held last night in the Hamburger cafe.

On Sunday the number asked to be provided for was 1000; on Monday the order was raised to 1500, and late yesterday, owing to the demand for tickets, the peg was advanced to 2000, and that number sat down to the tables. The Hamburger management covered themselves with glory in promptly serving the entire company, with the same facility as if the order had not been advanced.

Almost an hour before the time set, the crowd began to gather and peacefully the whole party stood in front of the building, singing gospel songs, before the elevators began carrying them to the fourth floor of the building.

It was a remarkable gathering from the standpoint of numbers alone, and Dr. John Willis Baser put it well when he said that the fact that they had stood an hour in the street and paid their dollar to get in, was the best evidence in the world that missions had got a hold upon them, and the fact, he declared, should make a dent in their memory.

All Southern California was represented, and it is estimated that 400 of the men were from outside the city. Speaking of the ministers who were present, one layman said that the name of every minister in Southern California might be printed in the list and it would not be a mistake.

AMONG THE STRONG BUSINESS MEN OF THE CITY THERE WERE HUNDREDS.

There were three bishops present: Bishop J. H. Johnson of the Episcopal Church; Bishop J. E. Robinson of the Methodist Church; and Bishop William Hall of the United Brethren Church; Hon. J. S. Wilber, American Consul-General at Kobe, Japan; Frank G. Dyer of Chicago, Edward B. Sturges of Scranton, Pa.; J. Campbell White of New York, general secretary of the Laymen's Missionary Movement; Dr. J. P. McNaughton of Turkey, Rev. J. P. Hall of Korea; Dr. J. B. Reid of China; and Rev. W. R. Hotchkiss of Africa, P. B. Bihorn of Chicago, and many others who were connected with the world's missionary work.

Mr. McDermott, chairman of the Executive Committee, called the assembly to order and presented the hostmaster, Dr. John Willis Baser, who deftly won the attention of the vast audience, and presented Frank G. Dyer of Chicago as the first speaker.

SPARK OF HUMOR.  
Mr. Dyer put a spark of humor in his opening words, by saying that it was an inspiration to be in this city. "Where I come from," he said, "it is understood that this is next door to heaven, and I come from a place with a similar reputation." When the laugh ceased, he continued:

"The men are awakening, but it is none too soon. Do you know that what we are now awakening to do is the work that began to be done 160 years ago, and we shall have to get it at automobile speed to make up for lost time."

"Every man ought to have some bit of gratuitous work for the world, and everywhere men are rising up to have their part in the work. In the year 1900 the churches gave \$24,000,000 for carrying the gospel to the heathen, and have added a million every year since 1904."

Edward B. Sturges of Scranton, Pa., said that he used to be a lawyer, and made a good living at it, but "if a man is going to begin being honest, he wants to start when he is about 50 years of age."

With that his humor ceased, however, and he talked of his two trips through Palestine and the impressions made upon him by his visits to the Sea of Galilee.

THE LIVE WIRE.

J. Campbell White, general secretary of the movement, was the real live wire, and during today and tomorrow he will be heard many times at the convention. For ten years he was in India, and for twenty years has devoted his life to work in the interest of spreading the gospel. In discussing the possibility of 300 men sending the other man to work in the foreign field, he said that "one man had paid his expenses for ten years," Dr. Goucher of Baltimore who recently died after having spent \$100,000 in India.

Mr. White's address was the most wonderful presentation of the question, according to those well able to judge, ever heard in Los Angeles. It was eloquent, fervent, sincere and without change, every word being made to count, and he was frequently interrupted by applause. This is the fiftieth convention he has attended, in the national series of twenty-five, and he declared it to be the most remarkable yet held.

He said that there are two views of Christianity, one being that it is a fact and the business of the members is to hold it; the other that it is a hand of Christians who will never be satisfied until every man in the world shares the blessings of the gospel.

"Some people are inclined to say that if we get it all done now," continued Mr. White, "there will be nothing for the next generation to do." "Has it ever occurred to you that if we do not preach the gospel to this generation nobody can? The millions of Africa, India and China will pass off the stage with you. We must reach all this people with the message now, if they are to be reached."

He declared that the nation is now awakening to the final crusade on the part of Christianity, and that the probability is not in India, or any other place, but right here in America.

"This missionary platform," he said, "is big enough for all the men of Southern California to step upon. The differences that separate the churches are infinitesimal as compared with the great chain that separates the world from Christianity. He said that the Philippines had

## LAST ABSOLUTE MONARCHS LEFT IN EUROPE.

Princess of Monaco. Prince Albert of Monaco.  
Rulers of Tiny Principality.

who have been asked by half their subjects to grant them constitution despite fact that they have no taxes to pay and live in comfort.

or overlapping of territory, and if a convert were to get into any church on the island he would see no difference, while China was in favor of one great Christian church.

"The only people who doubt the divinity of Christ," said Mr. White, "are those who are spending their time in discussing it, instead of putting it in practice in their lives."

"The great problem with which we have to deal is to wisely scatter the seed that we may reap the harvest, and it is your business and mine to deal wisely with the problem."

"Will America undertake her full share of this world task? We also have more than six times as many people to evangelize as non-Christian lands as constitute our entire population at home."

"The two things needed are intelligence and business method. The city of Toronto has increased its missionary efforts from \$170,000 to \$365,000, with a little more than a year. By the laymen of all churches taking hold as advocates and organizers. The Southern Presbyterian church has increased its missionary offerings in three years from \$225,000 to \$412,000 per year."

"To reach six hundred millions by the churches of North America would require a total of only 24,000 missionaries, which is less than one out of 100 of our Protestant church members."

"The cost of supporting this force of workers would not average over \$3000 per missionary, or a total of \$72,000,000 a year. It should be understood that this \$3000 covers not only the salary of the missionary, but the support of an average of about eight to ten native workers, the complete equipment of work abroad and the administration expense at home."

"Forty-eight million dollars from twenty millions of church members would be less than a street car fare a week on the average, and each of them. The total amount now sent annually for religious and benevolent work by the churches of this country is \$100,000,000."

"If we need to spend \$300,000,000 a year for religious purposes in the United States and Canada among a population of less than one hundred millions, is it reasonable to suppose that we can conduct an adequate Christian propaganda among six hundred millions abroad?"

"By the adoption of a businesslike method of missionary finance in our congregation, and by the active cooperation of the laymen, it is an entirely practical thing to do. The churches of this country to four times their present offerings toward world evangelization. It is already being done in so many hundreds of churches, that we speak with great confidence when we declare that the missionary problem in missions can be solved if the men of the church will put their intelligent and persistent efforts into the task."

"Men are beginning to do this in ever-increasing numbers. In one city recently the following laymen gave eighty-two pupils on the same Sunday presenting the methods and spirit of the laymen's movement. This is characteristic of the way in which laymen can be led to take hold of the work of missionary education, as advocates and organizers."

"Many men are adopting the new standards of stewardship, giving one-fourth, one-third, one-half, or three-fourths of all they earn, to the extension of the kingdom of Christ in the world. These men are entering into a joy life beyond anything they had supposed possible in this world."

"That man's life is most worth living whose work is most worth while. If you will link your life to the work of the world, you will find that you may become conscious of sharing with Him the joy and glory of helping to make the whole world over again."

"The world-brotherhood work of being described as the kingdom of God. It is easier for an individual to do his part when his congregation is trying to do its full duty. It is easier for a congregation to do its part when the churches of a whole city are moving together. It is easier for any city to do its part when the cities of the whole nation are lining up for serious business."

"Within the next three months we hope to see the seventy-five leading cities of America adopt a worthy missionary policy and put it into immediate operation in the churches. If this is done, it will shake the nation. If this nation moves it will move the world. And when Christianity moves it will shake the world."

THE CONVENTION.  
The convention proper will open in the First Methodist Church this morning at 10 a. m. The following speakers give a "Survey of the Field," at the first session: "Japan," Dr. J. L. Dearing; "Turkey," Dr. J. P. Hall; "India," Bishop J. E. Robinson; "Korea," Rev. Ernest P. Hall; "China," Dr. C. F. Reid.

At 2:30 p. m. a committee on cooperation and the speakers will take lunch at the Federation Club and continue the convention, and the afternoon session will convene at 7:30.

W. L. C. White, American Consul-General at Kobe, Japan, and Rev. W. R. Hotchkiss of Africa will deliver addresses.

## BLANCHE HALL IN HOSPITAL.

ACTRESS HURRIED FROM OAK-  
LAND FOR OPERATION.

Appendicitis Strikes Down Former  
Angelene at Height of Successful  
Season in Northern City, But She  
Refuses to Be Operated Upon Any-  
where Save Here.

Miss Blanche Hall, for several seasons leading actress of the Burbank Theater, and now filling a similar engagement at the Liberty Theater, Oakland, was brought down from the northern city in a Pullman compartment early yesterday morning, and was hurried at once to the Sisters' Hospital, where she was operated upon for appendicitis.

According to meager reports permitted to emanate from this curative institution yesterday evening, Miss Hall's operation was very successful, and she was resting as comfortably as could be expected. Dr. Ralph Hagan is her attendant physician.

Miss Hall concluded her engagement at the Burbank a month or two ago, and had intended going at once to New York, when she was persuaded

to act for a short time at least, in Oakland.

Her first play was "My Wife," and her success in the role of a girl engaged to be married was such that her engagement was then made indefinite.

She became ill several days ago, and when her complaint became serious, and an operation was found necessary, she firmly refused to be put through this ordeal in any city save this one, which she considers her home.

If all goes well, she will resume her leading-woman's place in Oakland in about a month.

LIVERPOOL, March 8.—The arrival here today of James A. Patton, of Chicago, caused considerable excitement in cotton circles, despite his denial of an intention to deal in wheat or cotton, and his explanation that he would be in England for only a brief holiday. Cables from America heretofore had painted a picture of the possibility of his having designs on the Liverpool market and as a result of local "rumor-mongers" the Chicagoans' movements closely.

Considerable blood was spilled last night in a collision between an automobile and a Santa Monica car at Fourth and Hill streets, but the gore all came from the nose of Ray Skelton of No. 2837 Hobart boulevard, and it was brought out by the fist of a Pacific Electric conductor.

Skelton was running south on Hill street, past fourth, when the Santa Monica car, in charge of Conductor A. R. English and Motorman R. Mackie, started into the curve leading to the Los Angeles-Pacific station. The front of the automobile struck squarely against the front corner of the car, wrecking the hood and engine and sending the broken glass over the windshield all over Skelton, the whole nation are lining up for serious business.

"Within the next three months we hope to see the seventy-five leading cities of America adopt a worthy missionary policy and put it into immediate operation in the churches. If this is done, it will shake the nation. If this nation moves it will move the world. And when Christianity moves it will shake the world."

## Spring Styles In SUITS

We claim that our suits are a little better than you'll find elsewhere for the money. Better in style, in material and workmanship. We select the cloths ourselves and have the garments made to our order by the best of New York's tailors.

This spring's popular model is unquestionably the plain tailored suit—neat, genteel, conservative and always dressy.

Of these we show an almost endless variety, and new ideas are coming by every express.

Among the favored materials are imported suitings and tweeds, shepherd checks and beautiful serges in white and navy, pique, too, will find many admirers among those looking for novelties in the way of suits.

Gray and tans, navy, Atlantic and various other blues are prominent colors.

Compare these new arrivals with the best values you have seen. Prove for yourself that our claim is not overdone.

Handsome new suits at:

\$21.00, \$30.00, \$35.00, \$45.00 and Up

## TWENTY-ONE VICTIMS TAKEN FROM DEBRIS.

One or Two Fatally Injured and Many Maimed By Salt Lake Train at Aliso Street—Crowded Coach Dragged Far.

ONE man, and possibly two, were fatally injured, and about eighty others out of a carload of fifty persons going to Pasadena, more or less seriously hurt at about 10:30 o'clock last night, when a Salt Lake freight train backed into an Oak Knoll car at the Salt Lake crossing, just beyond the bridge on Aliso street. The Oak Knoll car was turned over with its crew and passengers, after being dragged forty or fifty feet sideways, and three cars of lumber were piled all over one side of the overturned coach. The injured: L. MONREAL, No. 1243 East Ninth street, fractured skull, will die. GEORGE HOPKINS, No. 138 North Catalina avenue, Pasadena, real estate dealer, concussion of the brain, lacerated ear and shock. ARTHUR FORMAN, age 30, No. 1407 Garfield avenue, South Pasadena, possible fracture of skull and lacerations of face, head and neck, shock. C. B. HAMRICK, Primrose avenue, South Pasadena. A. L. POWELL, South Pasadena. MRS. MARY TACY, No. 307 East Colorado street, Pasadena. MRS. B. SNYDER, No. 345 Euclid avenue, Pasadena, hurt about back, shoulders and hip. MARGUERITE SNYDER, daughter of Mrs. B. Snyder, 15 years old, right knee injured. CHARLES PULZBACH, North Fair Oaks avenue, Pasadena, cut on head. TERRIBLE CRASH. The Oak Knoll car had almost cleared the crossing when it was hit. Only its rear truck was on the Salt Lake track, and the trolley car was moving rapidly. But the Salt Lake engine, backing a string of freight cars, at the end of which were three flat cars loaded high with lumber, struck it with a terrific crash. While the loose boards and timbers on the freight cars were sent flying through the air by the shock, the end of the

rails, their trucks and rods twisted and bent. The Pacific Electric quickly began caring for the injured. The patrol wagon summoned in haste, were given the task of taking the more seriously hurt to the Receiving Hospital, while those who were not so severely injured were helped aboard or trolley cars and sent to hospitals or to their homes.

DEATH RATTLE HEARD. L. Monreal of No. 1243 East Ninth street, this city, was found when a large motor had been pulling for some time on the overturned trolley car. The man was lying in the middle of the car, buried by debris, and it was only the moving of the car that exposed him to the workmen who had been under the impression that everybody had been taken out.

Monreal (possibly Monreal) was unconscious when found. His head had been crushed and he seemed to have also been hurt about the body. He was rushed to the Receiving Hospital in a police automobile, but when he reached the hospital the rattle was in his throat and he seemed to be dying fast. The only means of identification he carried was a gas company's receipt.

BLAMES SALT LAKE CREW. John Bismore of No. 1723 East Fourth street, the old Pacific Electric flagman whose post is at the end of the bridge on the east side of the river, did not hesitate last night to lay the blame for the wreck on the crew of the Salt Lake train who, he says, did not have either a light or a man on the rear end of their train. "I did not see the Salt Lake freight," declared Bismore, as he stood ruefully contemplating the heaps of wreckage that covered the entire right of way at the end of the bridge. "I could not see that freight," he continued, "for they did not have any light out, and they were backing

## JEWELER AND WIFE ACCUSED.

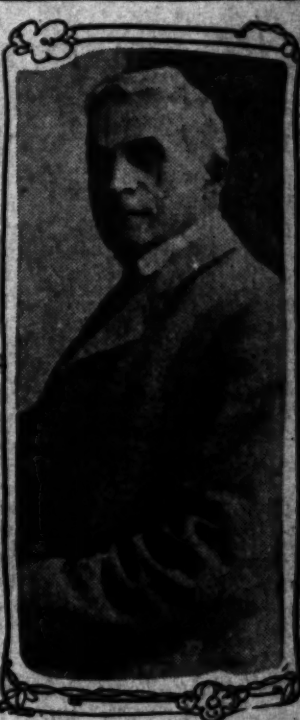

Detectives Say Owners Steal Valuable Trunk.

Baggage Checks Switched and Contents Taken.

Companies Refuse Claims for Missing Articles.

Charges implying that Albert Fink and Julia Fink, his wife, proprietors of a jewelry establishment at No. 318 Broadway Central building, are the thieves who stole a trunk containing many thousand dollars' worth of jewelry that was shipped to San Francisco, December 29, by Harry Adams, one of their traveling salesmen, were filed in Justice Summerfield's court yesterday.

The specific allegations are that they presented for allowance a false claim for \$5000 against the Hartford Fire Insurance Company. Behind the charges are alleged strange circumstances, including a scheme for "switching" baggage checks. Adams was employed by the Finks

J. A. Munk, M.D., who presented a valuable private library of Arizona to the Southwest Museum yesterday.

## THOUSANDS OF BOOKS A GIFT.

SOUTHWEST MUSEUM BENEFITS FROM LIFE WORK.

Great Library, Gathered Through Many Years by Dr. Munk, Relating to Arizona, Its Forestry, Mines, Indians and Antiquities, Moved to Hamburger Building.

A library of more than 4000 titles, bearing upon the history of Arizona, its people, climate, ruins and topography, was presented to the Southwest Museum yesterday by Dr. J. A. Munk.

Dr. Munk has handed over the work of a quarter of a century that the people of the United States, and particularly the seekers of knowledge in the great Southwest, may learn more of the land wherein they live.

The library, according to authorities, is unquestionably the greatest collection of its kind in the world. Maps, sketches, photographs and books by the hundred are to be found there. It was in the spring of 1884 that Dr. Munk visited Arizona. His brother, Judge Munk, had established a ranch in the southeastern section the year before and the physician left his duties in Topeka, Kan., to rest in the open country.

At that time the question of dodging the Indians was a great one. The Reds were on the warpath, a great part of the time and bands of marauding Apaches wandered about, killing and pillaging. It required a hero to collect data for the exploitation of a country such as that, but Dr. Munk went bravely to his task and has never let a day slip by without doing some work in perfecting his collection.

Others have become interested in his work and have aided him. Some months ago the doctor, who is dean of the Eclectic School of Medicine in Los Angeles, stated that he intended to give his library on Arizona to the Southwest Museum, a library entitled, "Arizona Bibliography, a Private Collection of Arizonaiana."

This gift was looked forward to with the greatest of interest. Embracing as it does works on forestry, mines, ethnology and astronomy, it was known to be of priceless value to those interested in the great open country as well as to posterity. The history of Arizona for the past 400 years is represented there, the most wonderful works on the tribes of Indians, their early life, customs and habits, and everything pertaining to their modes of living are embodied in the library.

That vast mystery of the creation of the ruined cities of the great desert, wrapped in a veil as tantalizing as a mirage, is brought nearer and preserved for all time in the works of the Munk collection.

The books have been kept at Dr. Munk's home on Alvarado street for some time. Yesterday the work of removing them was begun. Four truck loads were moved from the home to the Sixth floor of the Hamburger building.

The collection will be catalogued according to subject and within a short time will be open to those who are earnest in their search for knowledge of the Southwest.

## SWIMMING RACES.

O'Malley Equals Fifty-Yard Record for Southern California in Exciting Event.

The Southern California record for fifty yards was equaled last night in competition, and the Coast record broken in an exhibition in the championship races at Bimini plunge, under the auspices of the Southern California Swimming Association. O'Malley of Ocean Park won the final in the fifty-yard event, equalling the southern record of 27 3/4 seconds, while Holbrook broke the Coast record one-fifth of a second, by covering the distance in 28 1/4 seconds.

The feature of the night was the fifty-yard event and it was decided by three heats and a final, and was very exciting to the good-sized crowd present. In the first heat Crazy won, the time being 28 1/2. The third heat was taken by Bell, with Barker second, and the time was 30 1/4. In the final, O'Malley won, Bell was second, and Lee third, the time being 27 3/4 seconds.

In the relay race at 250 yards the Ocean Park team, composed of Bell, Holbrook, Seaman and O'Malley, beat the Y.M.C.A. team, in which were Lee, Harrell, Taylor and Howlett. The time was 2m. 11s. Frank Holbrook swam an exhibition fifty yards in 28 1/4 seconds. In addition to the races

Where Salt Lake Train Hit Trolley Car. Above is the overturned and crushed Oak Knoll coach, and below one of the loads of lumber which backed into it.

A. ADORELLI, aged 60, upholsterer, No. 34 West Colorado street, Pasadena, possible basal fracture, back sprained, lacerations over left eye, not expected to recover. MART SMITH, aged 35, No. 224 Franklin street, Pasadena, cuts on head and face, and shock. OCTAVIA PHILLIPPE, age 17, No. 505 Aliso street, head and face cut by flying glass. BROWN, tourist, living on South Euclid avenue, Pasadena, injuries slight. All the foregoing were taken to the Receiving Hospital. W. O. FELTER, No. 692 East Molino avenue, Pasadena. RICHARD TAYLOR, No. 208 East Colorado street, Pasadena, president Taylor Grocery Company. W. A. MONCELL, No. 1591 South Ley Rothen avenue, Pasadena. T. J. WILLIAMS, cookman on Oak Knoll car, No. 238 O'Connell avenue, Pasadena. CHARLES FELLERT, conductor on Oak Knoll car, No. 703 Franklin ave-

down on me. If they had a man on the back end, I did not see him. The yard is dark there, and it was easy for the freight to creep up on us. "When the Oak Knoll car came to the crossing, I signaled them to come ahead and they started across. "Just as they were hitting the crossing, I turned around and I saw that big pile of lumber coming into me at a lively clip. I saw right away what it was, and yelled and signaled them, but nobody saw and nobody heard me, and they just came on back. The right up. This is what they did, and he waved his hand over the debris in front of him.

## SAVE THE GRAIN.

Use the Harrow Freely, Says Farmer Clark to His Fellow Farmers.

That 90 per cent. of the grain now suffering from lack of moisture can be saved and much moisture can be conserved by farmers employing sensible methods, is the declaration of Frank C. Clark, a practical farmer of No. 508 Chamber of Commerce building.

"Too many farmers are employing wrong methods to secure the maximum benefit from the moisture the earth now contains," he said. "Many of them do not realize that we have had nearly the usual amount of rainfall this season, although rain is expected between the 15th and 25th insts. If immediate action is taken by farmers they can save 90 per cent. of their grain. There is plenty of moisture in the lower strata of soil to draw from, if simple scientific methods are followed. With the surface crusted and the moisture evaporating, we expect too much of the shallow-rooted plants. Grain that is yellow will become green within a few days after being thoroughly cultivated."

"Hundreds of farmers are rolling their grain. That operation gives only temporary relief. It is really a stimulus which temporarily after effects unless we have lots of rain. It is deceptive because the capillary attraction is so great that evaporation is too rapid. It would be all right if there was moisture to waste, but wastefulness is not to be practiced at present. When the plant is rolled, it is furnished temporarily with more moisture than it needs and a big percentage of the dampness is given off in the air and is lost, so far as the season's crop is concerned."

"All up-to-date farmers who roll their grain, follow up the work with a harrow, which makes the soil more moist. The harrow has had for a few days, but the relief is more permanent. I saw a sample of this near Venice yesterday. A man had smoothed his hay ground down in fine condition with a plank drag and the grain was quite yellow, not over three inches high and looked sickly."

"There is still time to correct mistakes if work is begun immediately, and I urge farmers to begin at once to husband what little moisture the ground now contains and derive av-

## NO TREATING NOR LUNCHING.

Works Hands Saloon Innovation to Welfare Committee to Consider.

If President Works of the City Council has his way, treating and free lunch will become obsolete in Los Angeles bar-rooms.

Yesterday Works handed to Chairman Washburn of the Public Welfare Committee two amendments to the liquor ordinance which is to be specially considered at a meeting of the committee tonight.

One amendment makes it a misdemeanor to treat any person to intoxicating liquor in the city.

The other forbids the offering of free lunch in any place where liquor is sold.

"There is nothing that promotes drunkenness like treating," said Works, "and it should be stopped."

"Do you favor anti-treating measures and bar free lunch, and will want to raise the license?" said he.

The Welfare Committee will hear tonight a number of speakers who oppose sections of the Eddie ordinance. Suggestions similar to those of Works have been considered in the making of the new law, but are not incorporated, even tentatively, in it.

# THE OIL INDUSTRY. SAYS WASTE IS GENERAL.

Englishman Visits  
Santa Maria Fields.

Mr. Brereton Freely  
Expresses Himself.

Believes Earth's Resources  
Should Be Conserved.

SANTA BARBARA, March 8.—R. Brereton Freely, a scientist and engineer of note, returned yesterday from Santa Maria, where he had been inspecting the oil fields. He came back impressed with the vast oil wealth of the county, but even more impressed with the waste of natural gas and water.

Mr. Brereton formerly was chief engineer of the Great Indian Peninsula of India; general manager and surveyor of the roads and bridges in the county of Norfolk, England; commissioner of the late state of California; and chief engineer of canal irrigation in the Great Valley of California. He was the promoter of the first irrigation act, passed by Congress on the 10th of March, 1872.

In speaking of his trip, Mr. Brereton said: "It was extremely interesting. It made my heart sick to see the waste around the oil fields. It is the same in all the fields of California. In the Santa Maria field, they have more natural gas wells than they have oil wells. They do not value or use the gas. They are thinking only of the oil. There is as much wealth in the gas and water as there is in the oil. All around these fields I noticed the crops suffering for the want of water and yet the water was only a few feet under the surface. If the farmers would buy this water and use it for pumping water they would be independent of the rain and able to make as much on forty acres of land as they do now on 400. There are three elements necessary for the development of a new country: a good climate, water, and cheap land. That is what California possesses. It is the cheapest land there is and that is what has made Los Angeles what it has made Los Angeles. They have used their cheap

fuel in their power-houses and have in this way been able to develop a great street railroad system, and now have 2000 miles of track.

When asked if it would be practical to pipe the natural gas from Santa Maria to Santa Barbara for lighting purposes, Mr. Brereton said: "Indeed, it could be done; water has to be pumped at intervals, but the gas would flow itself. It only needs to be compressed."

"They talk about the conservation of the forests, but I believe the conservation of the natural gas and water is decidedly more important, and I think the government should take charge of it and prevent the terrible waste of the resources of the earth. The companies keep no records of the various strata through which they pass, or of the water they pass through."

"The oil industry is only in its infancy. There is oil under the land all about Santa Barbara; I cannot say in just what stratum it would be found or that it would pay to bore, but time will show. Boring for oil is a gamble."

Mr. Brereton left today for the Bakersfield oil fields and will later wire an article on his observations.

## AT SANTA MARIA. EXPECT BIG PRODUCER.

(BY DIRECT WIRE TO THE TIMES.)  
SANTA MARIA, March 8.—(Exclusive Dispatch.) The Los Alamos Petroleum Company today struck oil sand, with seepage of oil and strong gas pressure. It is down 4200 feet and expects a big producer in almost any hour.

The West Huana well has a fine showing. It is in oil sand, with strong gas pressure. The owners expect the well in, in a few days. These two wells will prove the extremes of big territory and mean much to the Santa Maria fields.

Great Number Four will spud in this week.

## MONEY PROBLEM SOLVED.

Presbyterians Figure for Long Time How to Spend Large Sum Left by Millionaire.

(ASSOCIATED PRESS DAY REPORT.)  
NEW YORK, March 8.—The question of how to spend \$1,500,000 to the best advantage has been occupying the attention of the Church Extension Committee of the Presbyterian Church here for some time.

The money was received from the estate of the late John S. Kennedy, the New York banker, who left the major part of his great fortune to charity. It was announced today that a decision has now been reached. About \$300,000 will be used to pay off the debt on existing churches, while the remaining \$1,200,000 will be invested, and the interest of about \$60,000 a year will be used in the work of Presbyterian expansion.

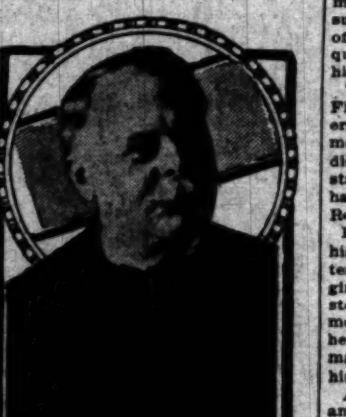

## WINNING THE FIGHT.

# HE IS KINDLY FOE TO DREADED TUBERCULOSIS.

FRIDERIC M. OAKES of Los Angeles, founder of what is today the most ideal home in the world for consumptives, is visiting in Los Angeles and Pasadena. He finds the people of taking care of tuberculosis victims here very much like the people in Colorado, which started on its life work several years ago.

Mr. Oakes came to Denver as a young Episcopal rector to take charge of a small parish. Soon afterward the infestation epidemic hit upon every Christian minister and a tremendous responsibility toward the invalids who came to him for help fell upon him.

There was no place for the victims of the "White Plague." Whether they had ample funds or barely enough to support themselves for awhile they

The Oakes home at Denver, and Mr. Oakes.

not to be forced into the most insanitary environments. Some of them were thrown back into the arms of the disease by the manner in which they were housed.

Rev. Mr. Oakes's Church Home, which eight years ago, today represents an investment of nearly half a million dollars. There are three large buildings, the central one Grace House, and the two side ones, St. Andrew's House and St. Andrew's House, are a model of a costly and tastefully furnished home. The central one has a large hall, with hard wood floors, and a beautiful view of the city. The side ones are the cheerful, comfortable, and well-lighted rooms for the patients. The central one is a beautiful building, with a large hall, with hard wood floors, and a beautiful view of the city. The side ones are the cheerful, comfortable, and well-lighted rooms for the patients.

## THE INFERIOR COURTS. SAYS ASSAILANT IS VERY RUDE.

WHEN MILD-VOICED MAN ANNOYS  
HE GETS BUMPED.

His Ire Rises When Bystander Sug-  
gests That He Can Get a Car on  
Opposite Side of the Block, Fight  
Follows and Belligerent May Serve  
Six Months.

The inability of Charles Roberts to keep his temper during a heated argument with Sam Bently yesterday resulted in the arrest of both on charges of disturbing the peace, and as a sequel to the affair, Roberts may lose his liberty for the next six months.

The bloodless battle occurred at First and Los Angeles streets. Roberts was waiting for a car and the motorist passed him by, much to his disgust. Bently suggested that if he stand on the next corner he would have a better chance. This annoyed Roberts, and the argument resulted.

Roberts assumed the aggressive until his shrill voice rose high, and he attempted to strike Bently, much as a girl might, with his flat palm. Bently stood for this mild form of amusement until it became annoying. Then he reached out and walloped the young man on the head, hard enough to drive his voice several notes lower.

A detective saw the battle from afar and hastened up in time to arrest both men. At the Police Station Roberts said Bently had been very rude to him. Roberts carried a small parcel of handkerchiefs and other belongings, and seemed more exercised about his belongings than about his fate.

Bently was taken into Justice Frederickson's court, where he pleaded guilty to a charge of disturbing the peace, and asked that sentence be pronounced immediately. He was fined \$10, which he paid. The officer stated that Roberts had been twice arrested on a charge of indecent conduct on the downtown streets, and that there was a sentence of six months hanging over him.

If this condition is found to be true, Roberts will be taken before Justice Williams on a charge of violating his probation.

## DID NOT VIOLATE ORDINANCE.

Arrested on a charge of violating the speed ordinance, E. A. Henney proved to the satisfaction of Justice Chambers yesterday that he was not guilty of the offense alleged. This is the first time in many months that an automobile driver has managed to free himself from a speed violation charge.

## HELD TO ANSWER.

E. A. Donnelly, charged with burglary, was held for trial in the Superior Court yesterday following preliminary examination before Justice Rose. In default of \$1000 bail he was remanded to the custody of the Sheriff to await trial.

## Kind Hearts—Good Deeds

"How far that little candle throws his beam!  
How small a good deed is a naughty world!"

Dr. E. L. Trudeau, founder of the Adirondack Cottage Sanatorium, has announced a \$25,000 gift from Mrs. E. H. Harriman for a research and medical fund for the support of the sanatorium laboratory. The fund is to be known as the E. H. Harriman research and medical fund of the Adirondack Cottage Sanatorium. The interest only is to be used each year.

Ten years ago, while Mrs. F. S. DeFrenee of Beverly, Mass., was living at Berne, Switzerland, she and an acquaintance, who had recently brought her a fortune. On a bitter cold night Mrs. DeFrenee painfully made her way through the cold, blowing down from the mountain tops to her home of an aged stricken, Miss Paotli, who had been stricken with fever, and was unable to move. The relation had been forgotten by Mrs. DeFrenee, but not by Miss Paotli. Recently the former received notification from attorneys of Berne that a legacy of between \$50,000 and \$60,000 had been bequeathed to her by Miss Paotli.

William Finnegans of Minneapolis is \$100 richer than he would have been if

not lost his pocketbook. While attending the recent automobile show, Mr. Hardy lost his pocketbook containing \$200, which he had drawn from the bank with the intention of buying an automobile. On finding that he had lost his pocketbook he hurried to the office to register the loss, when the wallet was at once taken from a pigeonhole and given to him by a man who had picked it up, had beaten Mr. Hardy to the office.

At the recent annual meeting of the Emma Farm Association of Pittsburgh it was announced that Isaac and Morris Kauffmann had doubled their yearly subscription of \$1000 each to \$2000 each as their contribution to the yearly salaries to the new work that is being taken up by the association. It was also stated that it would take \$12,000 to run the farm during the coming year. The Rev. Dr. J. Leonard Levy also announced that he would increase his subscription to the farm five-fold over that of the preceding year.

Judge J. C. Tobias of Bucyrus, O., who recently retired from the circuit bench, has turned his beautiful home over to the city for use as a hospital, and has bought a farm near town, where he plans to spend the rest of his life.

The charity of Nathan Straus of New York is of an immense value. He has turned his beautiful home over to the city for use as a hospital, and has bought a farm near town, where he plans to spend the rest of his life.

At his own expense, since 1890, a system of milk distribution for the poor of New York, he has been instrumental in saving thousands of citizens to the land of their adoption. Vouching for the efficiency of his charity, the statistics of the New York City Health Department show that his pure milk crusade has reduced infant mortality in a remarkable degree.

IF MORSE WOULD SQUEAL.  
About a Dozen Men Would Be Warr-  
ried, According to "Ice King's"  
Business Advisor.

(ASSOCIATED PRESS NIGHT REPORT.)  
ATLANTA (Ga.) March 8.—"If Charles W. Morse would tell what he knows of the connection of the financiers in New York with the panic of 1907, about a dozen men who stand high in the business world would be buying tickets to Europe and other places for trips of indefinite length," said W. F. Reid of Boston, before leaving for the East yesterday, after a conference with the former "ice king."

Mr. Reid, a lifelong friend of Morse, has much of his business in charge and has been a frequent visitor at the Federal prison here since the latter began serving a fifteen years' sentence for violation of the national banking laws.

"Morse is not the squealing kind and those men know it, but if they thought he was going to talk they would not be so anxious in giving him their aid," added Mr. Reid.

The charity of Nathan Straus of New York is of an immense value. He has turned his beautiful home over to the city for use as a hospital, and has bought a farm near town, where he plans to spend the rest of his life.

At his own expense, since 1890, a system of milk distribution for the poor of New York, he has been instrumental in saving thousands of citizens to the land of their adoption. Morse would tell what he knows of the connection of the financiers in New York with the panic of 1907, about a dozen men who stand high in the business world would be buying tickets to Europe and other places for trips of indefinite length," said W. F. Reid of Boston, before leaving for the East yesterday, after a conference with the former "ice king."

Mr. Reid, a lifelong friend of Morse, has much of his business in charge and has been a frequent visitor at the Federal prison here since the latter began serving a fifteen years' sentence for violation of the national banking laws.

"Morse is not the squealing kind and those men know it, but if they thought he was going to talk they would not be so anxious in giving him their aid," added Mr. Reid.

The charity of Nathan Straus of New York is of an immense value. He has turned his beautiful home over to the city for use as a hospital, and has bought a farm near town, where he plans to spend the rest of his life.

At his own expense, since 1890, a system of milk distribution for the poor of New York, he has been instrumental in saving thousands of citizens to the land of their adoption. Vouching for the efficiency of his charity, the statistics of the New York City Health Department show that his pure milk crusade has reduced infant mortality in a remarkable degree.

**VILLE DE PARIS**  
317 325 312 322  
30 BROADWAY 30 HILL ST.  
AFUSENOT CO.  
**SPRING  
OPENING  
Tomorrow**

**YOU** are cordially invited to attend this interesting and important fashion event. Our showing will definitely express the authentic styles, and will be a veritable unfolding of Fashions for Spring.

**New Tailor Suitings**  
From \$1.50 to \$2.75 Yard

The continued vogue of the strictly tailored suit increases the popularity of smart suitings in mannish effects. Our new spring line merits the attention of every fashionable woman, because we are showing the latest designs and colorings, and especially a fine assortment of grays and tans—Fashion's favorite tones for spring.

**Cream Woolens**

Completeness is the word that best describes the condition of our stock of cream woolens. We are showing all the popular weaves and weights for suits, dresses, skirts, etc.

Among the fabrics shown are: Panamas, serges, herringbones, chevrons, broadcloths, mohairs and Sicilians. Also the pencil striped serges now so popular.

**Black Dress Goods**  
In Transparent Effects

The use of transparent fabrics is an especially prominent feature in fine black goods for this season. These materials are made over Persian or chameleon silks. We are showing a superb line which includes marquisettes, voiles, grenadines and gauze effects. Some of these novelties are offered in exclusive pattern lengths.

**Beeman & Hendee**  
447 S. Broadway  
Infants' Layettes, \$8.00 to \$25.00  
Ladies' Shirtwaists

\$2.50 to \$4.00—The famous King Waist, considered the best cheap waist made. Materials of madras or linen, plain or embroidered front; strictly tailored.

\$5.75 to \$14.00—Lenox waist, embroidered and trimmed in Irish crochet down front and on collar and cuffs.

SPECIAL \$1.75—A plain madras waist, very neat and trim; good style and wearing quality.

**The Val. Lace Sale**  
Continued

The quality and distinctness of these Val. edges and insertions make the new prices seem ridiculously cheap.

Regular 30c values.....\$1.3c yd.  
Regular 35c values.....12c yd.  
Values over 35c .....20c yd.

**Little Boys' and Girls'**  
Romper Suits 50c up to \$2

Special—This new line of rompers have just reached the little folks' department on the Second Floor. Quaint and comfortable; mothers will appreciate their good values. Price 50c.

Materials are plain and striped, in blue, pink and lavender, with neck or with neckbands bordered down the side.

**This Marvelous Health Vibrator**  
Relieves Suffering Cures Disease

When you hurt yourself you rub the spot. When your head aches you rub your temples. Why? Because vibration is Nature's own remedy, and rubbing is Nature's crude way of creating vibration and starting the blood to going. Disease is only another name for congestion. Where there is congestion or pain there you will find the blood congested and stagnant. There can be no pain or disease where the red blood flows in a rich and steady stream. Good circulation means good health. Congested circulation means disease and pain.

**The Lambert Snyder VIBRATOR**

Is the greatest discovery of the Twentieth Century. It is capable of giving from 800 to 15,000 vibrations per minute—100 times more than is possible with the most expert master of massage. It is a light, compact instrument, weighs twenty ounces, can be operated by yourself with one hand by moving the steel head over the right steel rod, and can be placed in contact with the neck or the body. It is Nature's own remedy developed and perfected, and with one minute's use sends the red blood rushing into the congested parts, removing all disease and pain.

**WHAT IT DOES TO DISEASE AND PAIN.**

Rheumatism, Sciatica, Lumbago, Gout, etc., are caused by uric acid in the blood in the form of uric acid. This acid, through poor circulation at some particular part, gets stopped on its way through the system and, congregating, causes pain. Apply the Vibrator to the spot, and you will relieve the congestion and get rid of it.

Headaches, Ringing in the Ears, in most cases, are caused by the thickening of the inner membrane through congestion. To cure this vibration is the only thing, as it is the only way to reach the inner ear drum and loosen up the hard wax or foreign matter, so sound may penetrate to the drum.

Stomach troubles, indigestion, constipation, etc., are caused by the food not properly digesting; it lacks necessary saliva and gastric juices, thus creating congestion in the stomach; forcing gases, causing pain, flatulence, etc. Apply the Vibrator to the stomach. It settles the food down, releases the gases, regulates the action and brings about relief instantly.

## TING SNOW ROWNS AUTO.

Soledad Canyon and Is  
Likely to Stay.

o Escape of Driver in  
Flooded Roadbed.

Loot Machine, Which  
Has Disappeared.

Carmody, a wealthy young man, residing Pasadena yesterday, a thrilling experience in the Soledad Canyon. Carmody undertook to drive his automobile from San Francisco to Los Angeles by way of the Soledad, which has been washed out by a storm. He crossed the Soledad Creek, swollen to twice its normal height, and in trying to get the car out of the creek he was back into the creek bed, and had a narrow escape.

After Carmody left his car home, everything movable from it, suit cases, overcoats and even as in the bottom of the machine. The "box," when last seen, was being towed toward San Francisco. They have plenty of covering to them warm along the way.

ROAD FOR RIVER BED.  
Seattle man had driven the car San Francisco, and undertook to drive through the Soledad. The most of the trip through the Soledad, a road, over which the waters of the Soledad Creek have had way for weeks. The road is running bank full, and has the highway for its bed.

Los Angeles-North Baldy auto-race course follows the Soledad, one of the direct roads to Soledad, Fresno and San Francisco. Automobiles take the San Francisco-Cañon at this season of the year. The Soledad, which is longer, can be used safely. The Soledad is a daily impassable now, because of the water which left this city day to search for Carmody's car. The Soledad, which is longer, can be used safely. The Soledad is a daily impassable now, because of the water which left this city day to search for Carmody's car.

IT LOOKED "SAFE."  
When he passed the night, the party had failed to find his machine. Carmody became apprehensive, as the car is of the regular road, it had been washed entirely away. He was not at all sure where the machine was. In order to reach the car, it was necessary to drive through the Soledad, which is longer, can be used safely. The Soledad is a daily impassable now, because of the water which left this city day to search for Carmody's car.

Several Miles of Highway Gone.  
Scenes in Soledad Canyon, where storm water left impassable the road from Los Angeles to San Francisco.

FACTS, FEATURES  
AND FANCIES  
FOR WOMEN  
BY SYDNEY FORD.  
Fashion says "hats up" this year instead of "hats down" as last. This applies to the hats—not the price, which remains practically where it was a year ago. You will observe that the inverted peach basket of last summer has vanished and in its place is the smart and jaunty upturned hat, which actually reveals the forehead. Every hat has a roll, remarks a writer in the Delineator, whether off the face, at one side or directly across the back, and the effect is usually very becoming.

OCEAN PARK, March 8.—The Merchants of Venice have adopted a resolution favoring the payment of \$10 to the Trustees for every regular meeting attended. The Trustees themselves seem to be in favor of the plan, and the matter will receive consideration at a special meeting to be held tomorrow night. The proposal was submitted to the voters at the election, April 12.

UNDIVERGED TELEGRAMS.  
Undelivered messages are at the Western Union office, first and Spring streets, for W. H. Snyder, Roy Barker, Lou Snyder, C. J. Sager, E. Naylor, Charles W. Ranger, J. H. McConville, Louis Smith, John B. W. O'Brien, Frank Brundage, James W. McCree, E. E. Nelson, Miss L. R. Hill, H. H. Sills, M. Carlin, Mrs. King, Mrs. W. D. Busch, Mrs. L. J. MacQuarrie, C. W. Sells, Mrs. Joseph Chambers, J. M. Warren, Otto Henke, O. L. Pfeiffer, Harry Van Horn, Theater Film Service.

ARCADIA, March 8.—A Mexican, known as "Gus," a resident of Los Angeles, was struck by the Glendora car about 10 o'clock tonight, and so seriously crushed about the head that he is not expected to live. The man was taken into Los Angeles.

To Cure a Cold in One Day

Where the road was.

Cherries and currants, and berries and bunches of grapes look tempting in the fruit stalls but out of place on a hat, while flowers are always appropriate and attractive decorations to our head gear. They are very welcome after the deluge of straw hats, for nothing seems so essentially the thing for a summer hat as a flower. The Soledad is a daily impassable now, because of the water which left this city day to search for Carmody's car.

Set in Silver.  
If you are going abroad—and it seems as if practically half Los Angeles was headed Europeward—and if you contemplate spending some time in England, then do not fail to read that fascinating tale "Set in Silver" by the two Williamsons. It describes a motor trip through this wonderful island, set in the silver sea, and a most entertaining little romance is woven in with all the sight-seeing. That holds your undivided attention to the last page.

How One Girl Did It.  
And, talking of preparations reminds me, I heard the other day of an enterprising Los Angeles young woman who actually got herself ready, packed her trunk, and started for a three months' tour of Europe in exactly five hours. Some friends of hers were going, and she had a moment's hesitation, but complications arose which compelled her to abandon the trip. The telephone was brought into requisition, and the young woman above referred to called up and the opportunity offered her to fill the vacant place. She was employed in a railroad office. Without the slightest hesitation or delay she sought the superintendent, and asked him if he could secure her transportation to New York for the overland train leaving that evening.

The Flower Hat.  
The word has gone forth that it is to be a flower year above everything else. This seems to reverse the proposition of nature, in that flowers follow fruit, instead of the contrary, for last season our hats were perfect flowers and vineyards and gardens in their display of fruit and vegetable.

## PUTS AN END TO STOMACH MISERY.

INDIGESTION, GAS, HEARTBURN  
AND DYSPEPSIA GO, AND  
YOU WILL FEEL FINE  
IN FIVE MINUTES.

Thousands of men and women here and about Los Angeles will be surprised at the prompt relief after taking a little Diapiesin. Get some now and have your stomach trouble over forever.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach Trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Ask your pharmacist for a 50c case of Pape's Diapiesin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas, heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or internal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomach, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is at any drug store, waiting for you.

These large 50c cases contain more than sufficient to cure almost any chronic case of indigestion, or any other stomach trouble.

ready to leave on this train that pulls out tonight?" he demanded.

"I surely can," said the girl, "if you'll see to the transportation."

She was a trusted and capable employee, and her chief was game. "I'll do my part," he said, as he pushed a button to summon a messenger.

The girl rushed to her boarding-house, found ten women waiting for her to provide their services, and, in the midst of the babel of tongues she threw into her trunk her clothes, tied on her hat, and was off.

And yet we hear so much about the time required by a woman to make her toilet.

That Darning Egg.  
It's an old saying that, give a woman a shoe button, a hairpin and a pair of curling tongs and she has tools enough to meet any domestic emergency in the multitude of purposes to which she can turn these utensils. But did you ever stop to think what a housewife's friend the darning egg may be? Darning in sleeves can be much more neatly repaired if the break is stretched over a small darning egg. A torn piece of the crown of a hat, or in a portion of the trimming can also be repaired quickly by the use of the darning egg. It can likewise be slipped into trousers pockets that have been torn and make their mending much simpler.

When the darning egg cannot be found, the top of a small egg can be used. This is particularly good for darning holes in small pieces of material, and it is a very handy repair by working as nearly as may be in the mesh stitches.

All Around the House.  
If you desire to serve a baked fish whole, and have it stand upright on the platter, put a carrot inside the fish before broiling, and it will remain in position.

New shoes should be allowed to stand overnight in a pan in which just enough olive oil to cover the soles has been poured. They will last much longer, and will never squeak.

When making lemonade one of the lemons may be peeled and run through a meat chopper with a small piece of the peel. This will give the lemonade a delightfully pleasant flavor.

When next cooking hominy, stir in a well-beaten egg, just before serving. It will give the cereal a delicate yellow tinge, and the change in flavor will prove pleasing.

In making a shoe bag or laundry bag that is to hang flat against the door, use brass rings instead of loops for slipping over the nails. They will not pull out as the loops may.

A tasty salad made of cold-boiled oyster plant, cut in pieces, pieces of cold, boiled beets and sprays of cauliflower, dressed with oil and vinegar or with mayonnaise.

Embroidered table linens should never be folded when put away, but rolled in a long roll, with tissue paper rolled up with it. This will save a great amount of pressing.

To take ash grey out of goods, rub the spot with lard. Rub the goods in the hand, as if washing. Let stay in three hours, and then wash out in cold water, using plenty of soap.

# Make Your Will

The only means known to the law for the disposition of property to take effect after death is by will.

By making a will you can make gifts to others than heirs at law.

The maker of a will may provide a trust for minor children or any other persons in being at the date of his death.

If you make a will the court will not be called upon to appoint some party in whom you might not have reposed confidence when in life, to act as administrator of your estate.

If you make a will, your real or personal property can be sold without an order from the court.

If you make a will you can grant the power to trust company to sell your property, thus enabling your estate to make a sale without expense or loss.

If you appoint the Southern Trust Company executor, no bond will be required. Consequently, no attendant expense to the estate.

western melodrama, the largest production of its kind in the history of the motion picture industry. A special train of fourteen cars is required to transport it.

ONI MERCY!  
FIFTY FOOT IN THE DOORWAY.

NOTES TO DEMAND A HARTER AMENDMENT.

To Have Provision Submitted for Revision Committee and Votes for Women on Amendment?

The Council opened the door to the Revision Committee by the appointment of a committee to do not dream of the foot of the suffragette to hold the door.

In the case, according to the Revision Committee, the door was closed last night.

It was a woman's outrage that advocates of suffrage proper time and ask that the far as municipal purposes, be extended to the door.

Now the ticklish question is whether the commission plan, as proposed by J. A. Hewitt and L. R. Worthington, is a new amendment. There is a special committee composed of J. A. Hewitt and L. R. Worthington, who are the authors of the commission plan.

...melodrama, the largest production of its kind ever attempted, which will be seen at the Mason Opera-house week after next. The cast includes twenty-five speaking parts, a band of forty-five Indians and cowboys, eighteen trained horses, sixty supernumeraries, and a stage crew of thirty. A special train of fourteen cars is required to carry the people, horses and paraphernalia.

### FOOT IN THE DOORWAY.

...TO DEMAND A SUFFRAGE AMENDMENT.

...the Provision Sub-committee for Municipal Reform and Votes for Women on the suffrage amendment?

...the case, according to the committee, a member of the Revision Committee, who had been notified by representatives of the suffrage committee before the committee met, and ask that the committee be extended to the next meeting.

...he said, strictly in accordance with the provisions of the constitution, another member, who had been notified by representatives of the suffrage committee before the committee met, and ask that the committee be extended to the next meeting.

...he said, strictly in accordance with the provisions of the constitution, another member, who had been notified by representatives of the suffrage committee before the committee met, and ask that the committee be extended to the next meeting.

...he said, strictly in accordance with the provisions of the constitution, another member, who had been notified by representatives of the suffrage committee before the committee met, and ask that the committee be extended to the next meeting.

And Dr. Haynes said he did not see how it would be possible to refuse the submission of a suffrage amendment.

After "viewing" with alarm the suffrage prospect, the committee decided to find out, before it goes further, when a charter amendment ceases to be an amendment and becomes a new charter. In other words, a special committee was appointed, composed of J. A. Anderson, Leslie R. Hewitt and L. R. Works, to find a way to put the commission plan in the coffee of the voters without them finding it out.

Now the ticklish question with the revision is whether to provide the commission plan, as practiced in Des Moines, Grand Junction and other metropolises, as a new charter or as an amendment. There is doubt as to whether it would be an amendment within the legal meaning of the word, and the committee may ask outside advice, as there are only six lawyers on the committee. To give time for a correct answer, the committee adjourned until next Tuesday night.

Frank G. Finlayson, an ardent commission plan advocate, tried last night to get a vote to "try out" the commission plan. He said it was useless to go ahead discussing it. But Wellborn and Anderson thought a vote inadvisable, and Wellborn admitted that he did not know yet what the commission plan was. The two earnest supporters of the commission plan are Finlayson and Dr. Haynes, who, with the aid of Secretary Edgerton, are trying to have it adopted, and the tactics last night seemed to indicate fear on their part that it was regarded as a joke.

### ESTATE STILL IN LITIGATION.

After Twenty Years' Contest Heirs of Butte Millionaire Now Ask for a Receiver.

(ASSOCIATED PRESS NIGHT REPORT.) BOSTON, March 8.—A receiver for the Massachusetts estate of the late Andrew Davis, a millionaire of Butte, Mont., over which there has been litigation for nearly twenty years, is asked for in a suit filed in the Supreme Court by Joseph A. Coran of Brookline, assignee of two of the heirs. Coran declared the estate owes him upward of half a million dollars for money advanced in the celebrated will contest.

The defendants, who have nearly three months in which to file their answers to the suit, include Andrew Davis, John H. Layson, John E. Davis and George W. Davis, of Butte; Charles C. Davis and Maurice A. Davis of Seattle, and Elizabeth A. Smith of Oakland, Cal.

The contest of the Davis will was begun in 1895 with Col. Robert Ingersoll of New York as attorney for the contestants. Mrs. Ingersoll, widow of the lawyer, has not yet been paid for her husband's services in the case, but as soon as foreclosure proceedings against the lien on certain heirs of the Davis estate are completed, she will get \$150,000.

FIRE DAMAGES BATTLESHIP. KIEL (Prussia) March 8.—The recently-completed battleship Posen, one of the four dreadnoughts about to be added to the German navy, was damaged by fire yesterday and her first trial trip will be delayed for several weeks.

Search has been made for Nicanor Arraga, paymaster of the Mexican rurales, who has not been seen since he drew \$2000 from the Juarez custom-house last Saturday to pay the rurales in his district, about forty miles away.

### BEWARE PNEUMONIA!

According to mortality statistics, pneumonia is one of the most frequent and fatal diseases to which humanity is subject. Since action is so rapid that its victim is often in a precarious condition before realizing that anything more serious is the matter than a severe cold.

This is one of the dangers apt to follow the neglect of a cough or cold and is therefore the best of reasons why one should check a cold at the start. A simple, inexpensive and effective remedy for coughs and colds is made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure whisky. These can be bought in any good drug store and mixed together in a large bottle. Take a teaspoonful four times a day. It is claimed by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure, that this mixture will break up a cold in twenty-four hours and cure any cough that is curable.

"ALL MY LIFE A SUFFERER FROM CHRONIC CATARRH, I NOW FEEL LIKE A NEW MAN." F. FLECK, 428 North Grand Ave., Los Angeles, says: "I have had Chronic Catarrh all my life. It affected my throat, stomach and head. My nose was always stopped up so that at night I could not breathe through it. Interfering with my rest. I would also hawk and spit a great deal, especially in the morning. I had asthma. My stomach also became affected. I could not digest my food. I would bloat up and suffer with bilious attacks. This kept me run down all my life. I NEVER EXPECTED TO BE WELL. This was my condition when I began Dr. Shores' wonderful treatment four (4) months ago. They helped me from the first day, and I have gained right along. I feel like a new man. I weigh eight (8) pounds more and feel fine in every way. My catarrhal troubles are practically all cured, thanks to Dr. Shores' skill. I feel that sufferers ought to know of Dr. Shores' wonderful treatment, for they have made a new man out of me. Any one doubting this statement is at perfect liberty to call on me and I will gladly verify this statement." (Signed) "F. FLECK."

## FREE EXAMINATION ALL DISEASES

An offer open to all sick people this week.

DOCTORS SHORES & SHORES

222 Henne Building, Cor. Third and Spring

So many sick people do not know what their trouble is, and go along year after year doped themselves with patent nostrums or get treated by doctors who do not make a specialty on any class of disease; but that few realize the injury done them until it is too late for medicine to relieve or cure. This is why Drs. Shores & Shores make their generous offer to give a thorough medical examination to all who apply, just to determine what their disease is. No one is obliged to take treatment; but if they care to do so after their case is thoroughly explained to them, our fees are reasonable.

MARCH THE MONTH TO BE CURED. Springtime is best of the whole year to be cured quickly and surely. Get an early start—that's half the cure. Be treated by competent doctors—that completes the cures. Drs. Shores' 21 years successful practice is a guarantee of their ability.

Special DEPARTMENT FOR TREATING WOMEN AND CHILDREN. \$2—We also cure by mail—\$2 if you live out of town, write Drs. Shores & Shores for their new symptom blank. They are FREE.

\$3 A Month. Medicines, Free—For all Catarrhal Chronic Diseases, to those who may desire treatment—if you pay more you waste money—there's no better treatment at any price. Stick to Honest, Reliable, Competent Specialists. Don't forget Drs. Shores will give you an expert, scientific, painstaking and correct diagnosis of your case absolutely free of charge—if you apply at once. Start right—you may not have the second chance.

### WE CURE

Catarrh, Bronchitis, Asthma, and Lung Trouble, Rheumatism, Gout, Hay Fever, Stomach, Liver, Heart, Kidney and Bladder Trouble, and all Chronic Nervous and Blood Disorders that Are Curable.

\$3 A Month

For All Catarrhal Diseases All Medicines FREE. DOCTORS SHORES & SHORES, Specialists. Room 222 Henne Office Bldg., Cor. 3d and Spring. Extra—125 W. 3rd St. HOURS—Daily, 9 to 6; Evening, 7 to 9. Sundays, 10 to 12.

the minimum for yesterday. The mean is the  
average temperature for the two days.

LOCAL OFFICE, U. S. WEATHER BUREAU,  
San Francisco, March 1.—(Revised by A. ...)

Wollbach, Local Forecaster.] At 8 o'clock  
the barometer registered 29.96; at 5 p.m.,  
Thermometer for the corresponding hours  
showed 82 deg. and 60 deg. Relative humidity,  
a.m., 83 per cent.; 5 p.m., 61 per cent. Wind,  
a.m., east, velocity 3 miles; 5 p.m., west,  
velocity 4 miles. Maximum temperature, 81

ing: minimum, 56 deg. Fahrenheit for Tucson, 54 for  
Phoenix; rainfall last season to date, 14.79  
inches. Barometer reduced to sea level.  
**Weather Conditions.** — Morning and  
evening cloudiness (high fog) continues in  
southern California. Elsewhere on the South  
Pacific Slope the weather is generally clear,  
the British Columbia disturbance and the one

over the Colorado River Valley have joined forces and now form a moderate storm area of control over Arkansas and Texas. This development has caused little or no change in the weather east of the Rocky Mountains since Monday, except a slight increase in cloudiness over the States covered by the storm. Light precipitation continues in the Middle Atlantic

area, due to the influence of a storm passing  
through the St. Lawrence Valley. The  
conditions are for fair weather in Los Angeles  
vicinity tonight and Wednesday, probably  
with a continuation of cloudiness and misting  
at night and morning.

**Forecasts.**—Local forecast for Los Angeles  
area, tonight and Wednesday:

probably with a continuation of clouds or mist; fog night and morning; north to west winds.

San Bernardino, Redlands, Pasadena and San Bernardino: Fair tonight and Wednesday, probably with clouds or fog night and morning.

California south of the Tehachas: Fair to

AN FRANCISCO, March 2.—Forecast: San Francisco and vicinity: Rain Wednesday; light southwest winds, changing to brisk th. Northern California: Rain Wednesday; brisk th winds in the Sacramento Valley; moderate winds in the San Joaquin Valley.

UMA (Ariz.) March 2.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge on the Colorado River, 12.65 feet.

ILLNESS FOLLOWS LIVELY  
DEALS IN STOCKS.

Work on Railroad Bill in Congress  
causes Satisfaction in Wall Street.  
After News Regarding Steel Is Ex-  
pected—Efforts to Continue Advance  
Prices Are Discouraged.

**ASSOCIATED PRESS NIGHT REPORT.**  
NEW YORK, March 2.—The dullness which  
ruined the stock market after the lively  
start this morning was due to discouragement  
over the obstacles to the efforts made  
to remove the obstacles to the efforts made

the advice in price. Free selling profits was the most material factor. The benevolent control of the steel was by no means abandoned as seen in the late revival of United States Steel. The absorbent power in face of the large demand to realize had an encouraging effect on the cumulative sentiment. The determination to realize was the main factor in the late revival of United States Steel.

the coming \$40,000,000 issue of corporate bonds at 4 1/2 per cent. did not have a beneficial effect. Complaints were heard from the international trade of the discouraging effect of the demand from consumers of the long list of prices of stocks. Stimulated demand for bonds from the brisk recovery.

...affected by this influence. Satis-  
faction was professed with the steps being  
in shaping the railroad bill in Con-  
gress. The action of the wheat market on  
the news of the government estimate of  
reserves must be
